HOME LEARNING PROCEDURES

Spring Term 2021

Dear parents / carers,

Firstly we would like to thank you for your continued support and understanding during this time.

SELF ISOLATING

If you have to self isolate as a family while waiting for test results or have been in contact with a person who has had a positive test then there is work available on our website under the CHILDREN—CLASSES tab.

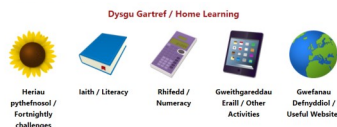

<https://www.ysgolparc-tywyn.co.uk/dosbarthiadau/class-pages/>

Halfway down the page are coloured pencils:

Click on the pencil for your child's Year:

Then select work from any Home Learning file.
You can upload it to HWB or email the teacher.

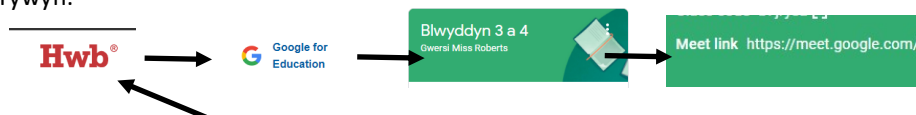

CLASS OR WHOLE SCHOOL CLOSURE

If we have to close classes or there is another lock-down period we will need to continue to educate your child virtually.

Welsh Government guidance is also more specific now than previously in terms of the amount of learning that pupils should have access to learning and state that pupils who are not in school should learn for the equivalent time that they would be in school, as far as possible.

Below we have set out our procedures at Ysgol Parc y Tywyn.

Keeping Contact Process

Teachers will hold a check in meeting with their class through Google Meets on Monday, Wednesdays and Fridays. The purpose of these meetings is to keep in touch, explain work, answer any questions and generally see how the children are.

Time table for "checkins"

Class	Year 1	Year 2	Year 3	Year 3&4	Year 4	Year 5	Year 6	F/T Nursery and Reception
Time	1:30	1:00	11:00	10:30	10:00	9:30	9:00	Tuesday and Thursday (teacher will share group times)

LIVE STREAM ACCEPTABLE USER AGREEMENT

Livestreaming Session—Learner Agreement

If your child would like to participate in future live streaming sessions, we will ask you to confirm that you have negotiated the Live Streaming Acceptable Use Agreement (see link below - this is also available on the school website) with your child and you agree that they will comply with this guidance. Please note that you can opt out at any time.

Agreement:

- We are aware that some of you have more than one child at school so we have tried our best to schedule these meetings differently.
- If your child does not attend these meetings then the teacher will contact you directly.
- You can contact the class teacher by email. We will respond to emails during school hours and at their convenience.

The Teaching Process

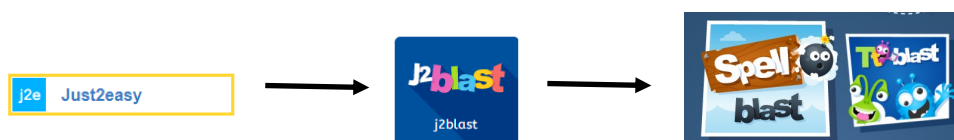

- Teachers will set work on HWB (JiT) for the Foundation Phase (Reception - Year 2)
- <https://hwb.gov.wales/>

and Google Classrooms in KS2. (Years 3-6)

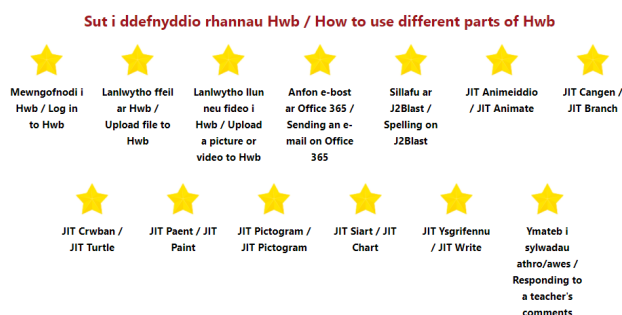

- The teachers have already introduced the medium of instruction and the children have been practicing using these programs
- * Maths and Language activities / lessons will be set daily. For some activities / tasks teachers will have recorded a short video to show the method or present the work.
- In terms of theme work we would set a menu of activities that will take two weeks to complete rather than specific lessons. (Similar to what we were doing in the first lock phase).
- Children will also be expected to practice number bonds / tables and learn to spell spells. J2blast and Spellblast are available on HWB for these activities.
- Teachers will answer any questions or offer feedback when this is consistent.

Guidelines on how to... ..

- There are a number of videos on our school website under the — CHILDREN — tab to explain the login process to HWB and Classrooms, how to upload work and photos etc.

Resources

- If there are technical problems preventing your child from accessing materials please contact the teachers by email. Any wireless device would be suitable to access work and most tasks can be completed on paper.
- If written, a pupil can take a picture and e-mail the work if access to a computer is not convenient.

Order of the Day

- It is important to have a specific pattern of work. Discuss with your child how much time of day they should spend on work.
- Literacy (language) and numeracy (maths) work must be completed daily and a range of activities selected from the menu or online learning resources. See links on our website.
- A rough timetable of the day could be created in advance with your support as a parent. You can see a possible example at the end of this document.

Mental Wellbeing

- It will be necessary to ensure that your child does not spend too much time on a tablet / phone / laptop when working. Set time limits and use of ICT.
- It is important that they have a period of fresh air every day even outside in the garden.
- It is also an idea to vary the nature of the day with different activities.
- Contact the class teacher by email if you have any concerns about your child's welfare.
- If you have any safeguarding concerns, please contact Mr Davies or Miss Roberts directly.

Useful Online Learning Resources

Many links to external websites are available on its website under tab— CHILDREN — CLASSES

Thank you again for your support and co-operation during these times.
