

Wimbledon Craft Activity

You will need:

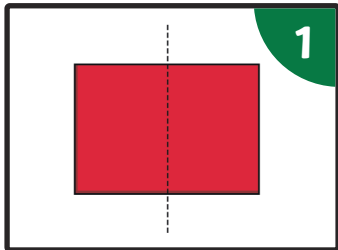

- a piece of red A4 card
- a piece of green A5 card
- marker pen
- scissors
- glue stick

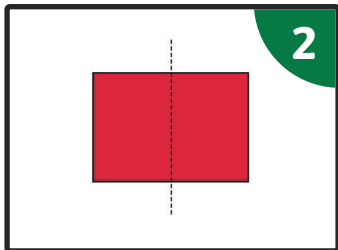

Strawberries and cream are just as much a part of Wimbledon as the tennis and these strawberries can be made very easily with just a few resources. They can be used as decorations for a Wimbledon-themed strawberries and cream party individually or with several of them threaded together like bunting.

However you use them, they will certainly be enjoyed by everyone.

Instructions

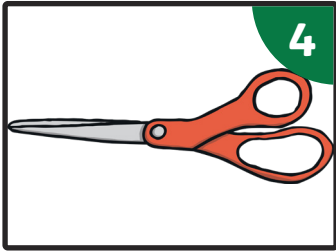

First, fold the sheet of red A4 paper in half and cut in two.

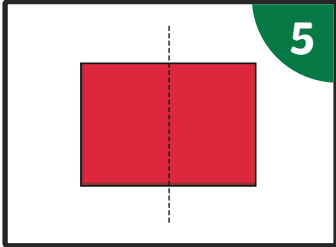

Take one of the pieces and fold that in half.

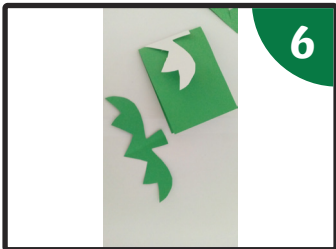

Using the template provided, draw half of a heart shape on one side making sure the fold is in the middle.

4 Cut around the shape you have drawn. If you open this up you will have a heart-shaped piece of paper.

5 Repeat with the other piece of red paper.

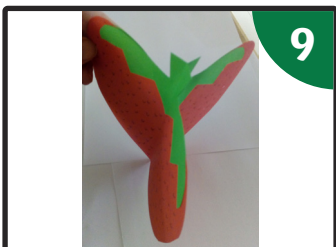

6 You now have two heart-shaped pieces of red paper. Use the marker pen to draw dots, just like a strawberry, on both sides of the two shapes.

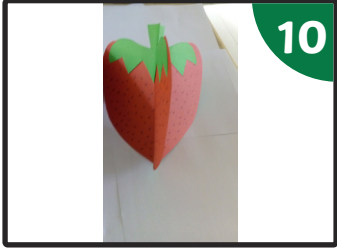

7 Now take the A5 green card and cut two pieces, exactly the same, using the leaf template provided.

8 Make sure the heart-shaped pieces of card are folded and glue together at the fold so there are four parts to the strawberry.

9 Glue the two pieces of green card to the top of the strawberry and to each other.

Your strawberry is now complete!

Why not make more and thread them together to make bunting?
