

Number Fact Families: Multiplication and Division

All parents/carers can play a huge role in developing our children's number skills, regardless of how we ourselves felt about maths at school!

By starting when they are young, we can help them to develop confidence and fluency - and, hopefully, enjoyment.

Please come along to our **free workshop - here at the school - for tips and games to support your child's recall of those all-important number facts and families.**
